DeWALT DWP849X polisher

Just in time for the holidays, the new **DeWALT DWP849X 7" variable speed polisher** will make your car and boat shine like new! This tool has a powerful 12 amps motor with an electronic module. This feature maintains the disc at a specified speed under load, delivering better finish results.

For precise work, a conveniently located variable speed dial lets user set maximum speed from zero to 600/3500 rpm for different materials and applications. Finally, an all ball-bearing construction and precision-cut steel gears allows for smooth operation.

More information : [Click here](#) to learn more about the DeWALT DWP849X polisher.

Bosch GLM80 laser rangefinder

This month, Bosch continues its rise on the precision tools market with the launch of the new **GLM80 laser rangefinder**. It is the first instrument to combine a rangefinder and an angle finder on the same tool, while working with a lithium-ion battery.

Big step forward in the industry, the GLM80 has an integrated dual-axe angle and tilt sensor. It allows the user to read angle while the tool is horizontally or vertically oriented. The indirect read mode is also useful to take measurements of inaccessible surfaces or objects, like rooftops.

NEW PRODUCTS ARCHIVES

June 2011

Bob Dale Gloves

Bob Dale Gloves products are now available at Outillage Placide Mathieu. Canadian company based in Edmonton (Alberta), Bob Dale Gloves manufactures and distributes **high-quality gloves for the industry**. Among the most popular items is the Kevlar ultra-resistant gloves. They have a higher cut-resistant grade and their black coating make them less dirty over time. Also, Bob Dale Gloves have a great price-value.

PeakWorks safety products

PeakWorks is a full service fall protection manufacturer specializing in the construction and industrial markets. This young Canadian company designs and produces **fall-protection products** such as harnesses, lanyards and roof anchorages. Many of the Peakworks products are available today at Outillage Placide Mathieu.

JawStand work stand

Introducing the **Rockwell RK9033 work stand**, a useful and multi-purpose accessory. This compact easy-to-use work stand not only supports loads up to 220 pounds, but it can clamp work pieces up to 1-3/4 in. thick and raise them 41 in. off the ground. Another nice feature of this heavy-duty tripod based support is its ability to pivot 0 to 90°, and swivel 360°. *We also recommend the Rockwell Jawhorse RK9000 for a complete clamping solution.*

More information: [Click here](#) to see the JawStand in action (YouTube).

GLR225 laser distance measurer

The new **GLR225 laser distance measurer** replaces the DLR165K has a 230 feet (70 meters) range and a few additional features. With an improved design, this useful tool offers 7 measuring modes : length, area volume, min./max., continuous, indirect length and multi-surface area measurements for versatile applications. You can also work from anywhere with 4 measuring reference points.

The user can make up to 30 000 measurements with a single set of batteries (4X AAA) with a precision of $\pm 1/16''$ (1.5mm). The Bosch GLR225 laser distance measurer has a weight of less than 7 oz. and a length of 4" (100mm), making it the world's smallest laser rangefinder.

XLAir cleaning unit

Because we always have your safety in mind, Outillage Placide Mathieu introduces the new **Topping 66-4040 XLAir personal cleaning unit**. This safety cleaning product reduces the risk of serious injury to workers using compressed air.

The use of blow guns represents a double risk for users : the workers are exposed to injury, while equipment could be damaged by debris contained in the air. Topping now offers an alternative that meets CSST and OSHA safety requirements.

Thanks to twin 4 horsepower motors, the Topping XLAir 66-4040 has a maximum outlet pressure of 8 psi and blasts clean, filtered air up to 58 500 ft./min for a powerful cleaning performance. Mostly used in shops and industrial plants, this new products is a lot less than losing an employee for weeks due to injury.

EDGE safety glasses

Outillage Placide Mathieu launches **Edge Eyewear safety glasses**. Built to endure the toughest conditions, these polarised glasses are CSA approved and are available in a great variety of shapes and designs, to reflect your personality. The high-end Edge glasses are worth 20\$ to 35\$, depending on the series you opt for. We also must note that Edge offers a model that fits over prescription glasses, in clear or dark shade.

More information: Visit the [Edge Eyewear website](#) to see all available models.

Stanley MIG titanium hammer

The new **51-124 framing hammer from Stanley** will revolutionize the way you work! At just 15-ounces and hitting like a 28-ounces hammer, it is the first lightweight all-steel framing hammer on the market, giving contractors a lightweight solution that combines the best of both worlds – the weight of titanium with the strength of steel.

This tool can handle virtually any professional wood-framing job. Its lighter weight helps to improve control and comfort while also increasing swing speed and strike force. The FATMAX XTREME® MIG15 also features a vibration-dampening grip to further improve user comfort and a magnetic nail holding slot for efficient one-handed nail starting.

V-Line Clamp

There is an accessory that will make its way on every jobsite this summer. With the new **V-Line Clamp**, you can make measurements and indicate a chalk line on your gyprock sheet with 1 hand ! The V-Line holds the cord of the chalk line or the tip of the measurement tape with ease, while an integrated hook makes it easy to carry around the job.

Bostitch gas nailer

Outillage Placide Mathieu is proud to announce the launch of the all-new Bostitch BGT1850K brad finish nailer. This powerful new tool uses 18 gauge nails from 5/8" to 2". It only weighs 4 pounds and works with a lithium-ion 3.6V battery. The Bostitch BGT1850K has a tool-free depth control for precise fastener placement and a tool-free jam clearance feature that reduces downtime. The kit comes in a moulded case with 1 battery and charger.

More information: [Click here](#) to see the Bostitch BGT1850K nailer on **PlacideTV (YouTube)**.

Bosch GMS120 wall scanner

The new **Bosch GMS120 wall scanner** has a multi-mode detection for wood studs, metal objects (rebar, studs and steel/copper pipes) and live wiring. Its illuminated graphical LCD display indicates mode, detection strength, and more, while the deep metal detection capability detects steel up to 4-3/4-in (120 mm) deep in cured concrete. This product has 3 separate selection modes and audible detection signal for even more ease of work.

DEWALT Diamond Edge Chop Saw Blade

For all steel workers, the **DeWALT DW8500 diamond blade** is made for you. This 14" blade will make up to 100X more cuts than a traditional abrasive blade. Apart from saving you time and money, you are able to keep the same depth of cut for the length of the blade's life.

A steel blade core provides the constant cutting depth, capacity and stability of a solid core, and the exposed diamond matrix allows the blades to cut concrete, plastic, fiberglass, rubber, non-ferrous metals, stainless and ferrous metals without loading for flexibility on the jobsite.

Milwaukee portable band saw

From the maker of the popular electric portable band saws, **Milwaukee launches the new 6242-6 compact band saw**. This small yet powerful tool is ideal to cut struts, conduits and rods in the tightest areas.

At only 9-1/2 pounds and 16" in length, the Milwaukee compact band saw is the perfect tool for cutting metal in-place, overhead or in tight spaces. With 3-1/4" cut capacity, 7 amps. motor and low vibration, this saw delivers the cleanest cuts every time.

The 6242-6 saw also features a work light, a blade ejection system and a tool-free adjustable material guide. The new product is designed to offer a light and useful solution for HVAC and telecom workers.

Champion tools and accessories

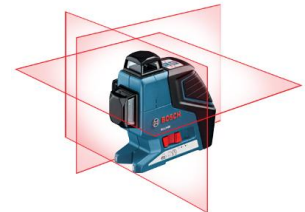

Outillage Placide Mathieu is proud to introduce **Champion tools**. This American company, founded in 1897, is a renowned supplier of **industrial cutting tools** at competitive prices. Among the interesting products you will find in-store is a powerful magnet drill for less than 1000\$ and a **carbide tipped hole cutter set** for cutting sheet metal and stainless steel.

More information: Visit the [Champion website](#) and read the [PDF catalogue](#).

Bosch GLL3-80 laser

After launching their popular 2 lines lasers in 2010, Bosch now offers the **GLL3-80 360° 3-Plane Levelling and Alignment Line Laser**. It provides 3 precise 360-degree full plane coverage in both horizontal and vertical operations

The Bosch GLL3-80 laser is self-levelling and has an accuracy of up to $\pm 1/4$ -in @ 100-ft. The "Pulse" laser receiver mode allows the user to work at long distances and/or in bright light conditions with the laser receiver.

A whole new way to build a deck

Whether you're building a new deck or refinishing an old one, you want to do the job right. With the **Kreg Deck Jig™ # KJDECKSYS** – and a few simple tools you already own – you can create a beautiful and functional deck surface, completely free of exposed fasteners and painful splinters!

Traditional concealed-decking systems utilize awkward steel fasteners or thin plastic clips to hold your deck boards in place. The Kreg Deck Jig™ utilizes a more straight forward approach, creating an incredibly strong wood-to-wood bond through precisely placed self-tapping screws. Now you will say: **DRILL. DRIVE. DONE !**

More information: [Click here](#) to see the *Deck Jig on PlacideTV (YouTube)*.

Magnetic Tough Cases

Built by DeWALT, we introduce 2 new magnetic cases. Ideal to put away fasteners, drill bits and screws, these cases endure the toughest conditions. Two high strength magnets allow to be fixed to any ferrous surface, while the built-in hooks allow the case to hang anywhere.

Also, the impact resistant material adds increased durability to prevent breakage. You have the choice between a 15 piece regular drill bit case (#DWMTC15C) and a 20 piece impact ready drill bit case (DWMTCIR20C).

The All New multi-function Maglite® XL100™

A revolutionary breakthrough in flashlight technology, designed for optimum light output, the new MAGLITE® XL100™ LED flashlight delivers user-friendly, performance oriented features in a sleek, tactical design. Engineered from the ground up, this advanced lighting instrument is driven by the next generation of MAG-LED® technology and includes the Advanced Flashlight User Interface™.

The **Maglite® XL100™ # XL100S3016 flashlight** delivers 85 lumens of power and features a push-button tail cap switch with (5) selectable modes, plus lockout (prevents accidental operation).

More GearWrench in store

Outillage Placide Mathieu now offers a **larger inventory of GearWrench manual tools**. We carry these new line on our shelves :

- Socket trays
- Flexible ratchets
- Ratchet and socket sets (SAE and metric)
- Ratchet wrenches sets, individual ratchet wrenches from 1/4" up to 2"

Miniature air nailer

Did you ever had to install a nail in an inaccessible area? Well, if the answer is yes, the tool you need is the **Himount PT3331 pneumatic nailer**. It hides in the palm of your hand while providing a 4" nail capacity. The integrated magnet firmly holds the nail in place.

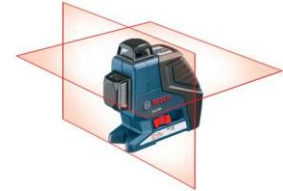

Target every direction with Bosch

This month, we present the new **Bosch GPL5C 5-Point Self-Levelling Laser**. Very performing, this laser provides easy single-set up track alignment on both floor and ceiling, eliminating the need of two set up points for track alignment; which saves time and increases accuracy. The Bosch GPL5C projects plumb, level and square points and offers a selection switch to choose between 3 laser options.

360° laser from Bosch

Increasing its wide range of professional lasers, Outillage Placide Mathieu also presents the **Bosch GLL2-80 laser**. With 2 independent laser beams, it provides precise 360-degree full plane coverage in both horizontal and vertical operations. You can also use this laser outside, with a "pulse" mode and the receiver sold separately (#LR2). The Bosch GLL2-80 offers a 1/4" to 100 feet and a 65 feet inside capacity.

One indestructible ratchet !

Everyone knows that ratchets are sometimes used as hammers, because let's face it, time is short. It doesn't have to be like that anymore because now there is the **Wera 3692 Koloss 1/2" ratchet**, the first ratchet in the world that can safely be used as a hammer. The Koloss is a reversible, heavy-duty ratchet that can transfer at least 600 Nm of torque.

A double pawl mechanism and a return angle of only 6° allow you to tighten and loosen screws quickly and accurately even in cramped conditions. The unbreakable tool is a long-term investment.

More information: [Click here](#) to watch the **Zyklop on PlacideTV (YouTube)**.

ResQue recovery system

The new way to get back on the job quickly is the **NoPac® resque™ CORD System Energy-Absorbing Lanyard**. If you fall from a rooftop or another high area, you just have to pull a cord to release an integrated ladder. This innovation reduces hang-time, discomfort and injuries. The **ResQuematbur** is sold in both 4' (# 35824) et 6' (# 35826).

Introducing EARLEX HVLP paint sprayers

Outillage Placide Mathieu is proud to introduce **Earlex paint sprayers**. Made in England by Earlex, the biggest HVLP sprayers manufacturer in the world, these tools are truly the modern way to paint and achieve a professional finish every time. The easy-to-use, quick clean-up system won't clog and has low overspray for virtually no waste. **It works for interior and exterior projects**, detail projects, fine woodworking projects and more.

We offer 2 different sprayers in stock. The HV3500 is the most popular model on the market and is designed for semi-professional use. The HV5000 is more powerful and is made for professional users and can even be used for automotive painting.

More information: [Click here](#) to discover **Earlex on PlacideTV (YouTube)**.

See, capture, film !

If you are looking for a performing inspection camera, stop searching ! We now offer the **Reed BS-150 inspection camera**, which offers numerous functions, just like pricier devices. Thanks to a 3.2" color screen, you can take pictures and records professional videos, without the need of a computer. This affordable and versatile camera will help you save time and money. There is the main characteristics of the Reed BS-150 inspection camera.

LAPR150 Stabila rotating laser

New in its professional rotating series, Stabila introduces **the LAPR150 # 05155 laser**. Made in Germany, this powerful tool is a low-priced laser that offers an automatic levelling system and 1000 feet (300 meters) capacity for less than 1000\$. It comes with a tripod, remote control, laser detector and a tough carrying case.

Everyone could use a 3rd hand !

Hitachi extends a helping hand to contractors everywhere ! The Grabber Joist Jaw is the perfect accessory for the Professional Wood Framer. Like a second pair of hands, the Joist Jaw holds up the rafters and joists, eliminating the need for two people. The Joist Jaw automatically levels the cross member with the rim joist or ledger giving the framer a "hands free" position while installing the joist hanger or other connectors.

With just a couple of twists, the Joist Jaw clamps down on its target from the top or the bottom and holds your lumber tight! This tool increases the accuracy and production of a 2 man framing crew whether they're building a deck, a roof or a floor, saving time and money. The joist jaw is reusable and made of zinc plated durable steel. Package comes complete with 2 Joist Jaws per package. For all 2x wood framing or less.

Fenix : Ultra-performing flashlights

You will be amazed ! The new Fenix Tactical flashlights are a true revolution on the portable lighting market. While offering a bright and concentrated beam thanks to LED display, the Fenix lights are tougher and more durable than any other flashlights.

If you compare a LED Maglite flashlight, which produces 80 lumens of power, its Fenix counterpart offers an astonishing 265 lumens of power ! Fenix Tactical flashlights are powered by DEL Cree XP-G lighting technology and a unique optical system. You can even see an object a few hundred meters away !

More information: [Fenix Catalogue](#)

RapidFix Glue

RapidFix is an advanced polymer adhesive that can quickly - sometimes instantly - bond most materials to themselves or another material. The welding powder is a complementary formulation that enables even stronger bonds, and can repair holes, cracks, and gaps. For some applications, the welding powder can even function like solder or traditional heat welding. Areas treated with RapidFix can be filed, sanded, and painted.

Mini-Ductor II

The Mini-Ductor II is a 1000 watt 110v hand held portable induction heater for the flameless heating of fasteners and hardware. The flameless heat created with the Mini-Ductor II allows you to avoid the collateral damage often caused by a torch.

Its ergonomic design is perfect to work in the tightness areas in the car-repair and mechanical industries. The Mini-Ductor kit comes in a carrying case with multiple adaptor sizes, to ensures multiple applications.

Ridgid Power Spin

With spring coming soon, Ridgid introduces a low-cost and intelligent solution for drain cleaning. The Power Spin 88387 is a light-duty product for drains up to 1-1/2". The comfortable hand grip eases effort, while the 1/4" X 25 feet hollow core cable allows great flexibility. The Ridgid Power Spin automatically advances and retrieves cable, and it can be operated by hand or by adding any variable speed drill.

Brave winter with SUPER-DRY

At this time of year, there is an ingenious accessory that will save you money and a lot of trouble! The Super-Dry air tool dryer is specially designed to remove moisture from compressed air lines. It delivers clean and dry air to your pneumatic tools while reducing maintenance costs.

To maximise the efficiency of the Super-Dry system, let the inner bag dry in you oven for about 30 minutes at around 200°F (93°C). You can also buy the replacement bag in our store. Finally, this accessory must be placed at around 15 feet from you compressor. If you position it too close to the compressor outlet, the air is too hot and humid, which will affect the performances of the Super-Dry system.

Save your hands with the PLASTI DIP

The Plasti Dip products from Performix are now available at Outillage Placide Mathieu. Plasti Dip is a multi-purpose air dry, synthetic rubber coating that can be easily applied by spraying, brushing or dipping.

Plasti Dip resists moisture, acids, abrasion, corrosion, skidding/slipping, and provides a comfortable, controlled grip. It remains flexible, stretchy and will not become brittle or crack in extreme weather conditions. These products are available in store in a variety of colour, including black and yellow. Each layer of coating takes about 4 hours to dry.

More information: Visit the [Performix website](#) for additional information.

The OMEGA compressors

This month, Outillage Placide Mathieu launches a new line of professional compressors with the brand Omega. These products are known to deliver good performances on the job site for an affordable price. You will find the compressor to fill your needs thanks to many different models available, such as hand-portable, wheel-portable, vertical, horizontal, gas-powered or for service trucks.

Because we are a high-volume distributor, Outillage Placide Mathieu can offer its customers the full Omega product line at competitive prices. Visit us today to discover the fine conception of these quality compressors or discover the [Omega catalogue](#) for more details.

A new radio from MILWAUKEE

Milwaukee finally introduces its new jobsite radio 2790-20. It works with a 110V AC adaptor or with any Milwaukee rechargeable batteries from 12V to 28V, including the Lithium-Ion series V18, V28, M12 and M18.

The 2790-20 Milwaukee radio is equipped with a digital AM/FM processor and two powerful speakers, for a crisp and clean sound everyday. Your MP3 players such as iPod can be secured in a independent compartment. Also, this radio is protected from vibrations and shocks thanks to a tough polymer and steel casing.

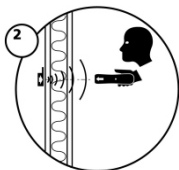

Innovative tools from Stanley FAT MAX

The Stanley Works tool company, specialized in quality hand tools, offers 4 new products from its FAT MAX line. You can now purchased innovative ratchet adjustable wrenches of 8", 10" or 12". One adjustment on the bolt and you are ready to work easily with one hand! With Christmas time upon us, here is 3 other smart gift ideas : Ratchet screwdriver (69-189), multi-bit Clip-N-Grip screwdriver (69-188) and a 12-in-1 Multi-Tool (84-519K).

More information: Visit the [Stanley Canada website](#) for more details.

See through the walls with the QUICK CENTER !

An innovative and very useful invention, the Quick Center device allows you to basically see from side to side of a rigid wall ! With this device, you can now mark a point on one side of a wood or concrete wall and drill perfectly straight.

Your ceramic tiles don't stand a chance

The new Pearl PA-7 ceramic tile saw offers a 20" regular cutting capacity and 14" in diagonal, thanks to its wide table. With a 7" high-performance ceramic blade, you are assured of fast and precise cuts, all of this powered by a high torque 3/4HP electric motor. Its integrated water pump eliminates blade friction on the ceramic tile for easier cuts. Also, the heavy-duty stainless steel water pan ensures long and lasting working life. The new PA-7 wet tile saw from Pearl is a great tool for professional users.

Dual Cut jig saw blades

Dual Cut jig saw blades are the latest saw innovation from Starrett. They are the first ones with teeth that cut in both directions, virtually eliminating burrs from both sides of the cut. Whether you work through double-side laminate or MDF, your cut will be sharp and clean every time.

The Trusty compressors hit the floor

The air compressors from Trusty are now available at Outillage Placide Mathieu. Whether it is electric or gas powered, these high performance tools are suited for regular work at home or on the job site. The # PK5020 comes with a 2HP electric motor/20 gallons tank and the # TY5508G with a 5.5HP Honda gas motor. It is good to know that the Trusty electric compressor have a dual 115V/220V external switch for greater working capacity.

A unique laser from Bosch

Bosch recently acquired the CST/Berger company, renowned for its quality and long-lasting lasers. We now offer the Bosch # 58-XLP34PKG, unique in its kind. Its 3 laser lines cross at 90° horizontally and on the ceiling. The Plumb down beam to the floor allows the greatest versatility. Also, this model is self-levelling to $\pm 5^\circ$.

With a precision of 1/8" at 100 feet, you can use it either inside (100 feet) or outside (up to 300 feet) with the electronic detector included in the box. The Bosch # 58-XLP34PKG package comes with a detector, magnetic tripod, target plate, glasses, 3 AA batteries in a tough case.

More information: [Click here](#) for more details on this laser.

Perfect laminate cuts every time

The new LU3A blades series from Freud is perfect to cut laminates on your table saw. The unique 38° angle and design of each tooth ensure fast and precise cuts on the most delicate kinds of wood. Now, a few seconds and you can go from an application to another.

March 2009

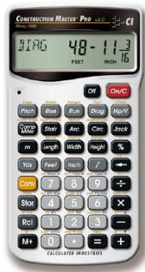

The power of LEDs in your hands

The line of HEMITECH products from the renowned Cliplight manufacturing company is now available on our shelves. These new devices use a lighting technology called LED (*Light-Emitting Diode*), which offers a powerful and long-lasting 70° illumination angle. The tough frame and resistant glass prevent these products from breaking over time.

The four diodes available on both 25 and 50 feet electric corded models (# 123407 & 123415) equal the power of a 100 watts electric bulb. You can also buy this product in a tough 40 feet metal reel (# 223412) at Outillage Placide Mathieu.

Precision and cost-savings at your fingertips

With the calculators from *Calculated Industries*, no home improvement or renovation project is out of reach. In a few easy steps or by pressing a single button, you can calculate the exact quantity of paint needed for your living room or the wood for a new fence in the yard.

The # 8526 model lets you calculate in inches, feet, yards, decimals and meters. You can easily make measuring conversions from a unit to another and determine the surface of a floor or the volume of a room. Many integrated keys can allow the professional contractor to estimate to total cost of a project as well as benefit margins.

We offer the *Construction Master Pro* # 4065 and the basic model for and do-it-yourself workers # 8526.

Powerful new tool made in Italy

The Omer B6.50 pin/nailer is the perfect tool for installing mouldings cleanly. Using 23 gauge brads and pins, the tiny head virtually eliminate the need for finishing or coating tasks. This brand new tool offers a 7/8" to 2" capacity and is made for renovation contractors who want to invest in a powerful and long-lasting quality device.

Diamonds are forever !

You need to cut trough ceramic tile, decorative marble or glass? If so, the new DeWalt diamond drills are for you. These holesaws will give you quick and clean results on a great number of surfaces in your home.

You just need to set the proper speed on your electric drill and continually add water or cutting oil while you make the hole. You will find 8 different sizes of DeWalt diamond drills at Outillage Placide Mathieu, from 3/16" to 1".

Measure everything with Bosch

The DLR165K digital laser Rangefinder from Bosch offers you length, area, volume and continuous measuring capability in a small and powerful new tool. Thanks to a 165' range and a precision of 1/16", this laser is fast and easy to use. It gives you 4 different measuring reference points: back, front and swing out extension pin for measuring from inside corners/channels.

The indirect length measurement mode calculates inaccessible distances that cannot be measured directly due to obstruction or lack of reflecting surface using Pythagorean theorem. The Bosch DLR165K comes with a nylon carrying pouch, a hand strap and 4 AAA batteries. This is the ideal tool for every floor installer, master carpenter and house estimator.

A lightweight and compact drill from Makita

Makita recently launched on the power tool market the DF330D cordless drill-driver. Equipped with 10.8 volts lithium-ion batteries, this drill is one of a kind with a small 8-3/4" length casing and weight of only 1.9 pound. You can also count on a 3/8" keyless chuck, 2-speed gearbox, integrated LED light and 18 torque settings for up to 210 inch-pound of torque.

Milwaukee launches a 12" sliding miter saw

Fresh on our shelves is the brand new 6955-20 12" dual-bevel sliding compound miter saw from Milwaukee. Its digital display provides repeatable accuracy to 0.1° and both integrated work lights fully illuminate the work piece and cut line from either side of the blade. The powerful 15.0 Amp. direct drive motor provides increased power for high performance cutting in hard lumber. The Milwaukee 6955-20 comes with a 60-teeth carbide blade and dust bag.

The Stabila laser 05600 is tough in any situation

If you are looking for a high-quality self-levelling rotary laser, you will find it at Outillage Placide Mathieu with the new Stabila 05600 (LAR250). This new tool allows you to project the laser beam horizontally, vertically, make a 90° angle and calculate an inclination of up to 5°. It has a dust/water proof casing, a shock absorbing interior and it can resist to a temperature of -10°C to 60°C. With a precision of 1/8" at 100 feet for a measurement distance of 1000 feet, this is the perfect tool for every contractor.

Thomas compressors : The quality standard

For many years, the Thomas Compressors brand has established itself as the leader in manufacturing high-quality compressors for construction and renovation contractors. The direct-drive motor and high-performance pump maximise productivity while reducing waiting time on the job. Every model has a oil-free nylon base, meaning no maintenance required. Outillage Placide Mathieu sells all electric and gas Thomas compressors approved on the Canadian market (CSA) and we are an authorized warranty service center.

The power of titanium in your hands

The titanium made Stiletto hammers appear more and more frequently in tool pouches and tool boxes of contractors in Quebec. Thanks to their light and ultra-resistant titanium head, Stiletto tools allows the user to maximise the power of each stroke, while considerably reducing the amount of stress applied to the joints and bones. With this in mind, roofing and siding jobs can be accomplished quicker with less effort.

You can find three types of Stiletto hammers on the market, all with a titanium head that absorbs shocks 10 times better as well as a built-in magnetic nailing device: *Caryer* (wooden handle), *Polyfibre* (fibreglass handle), *TiBone* (titanium handle).

The Stiletto hammers are the standard of quality in the field of construction and roofing in North America. Be among the first to get one. Just call our sales representative or surf through our on-line catalogue to discover the entire family of Stiletto hammers and accessories.

Milwaukee M12 Cordless Series hits the shelves

Milwaukee announces the evolution of its 12 volts *Lithium-Ion* cordless family of tools. After the earlier release of the compact screwdriver, perfect for light jobs, you can get a powerful 1/4" Hex impact driver, a *Hackzall* reciprocating saw, a copper tubing cutter, a work lamp as well as an inspection camera.

Perfect for various plumbing and electricity tasks, the *M-Spector* comes with a high-resolution 2.4" screen, 2X zoom, flexible 3' waterproof cable and integrated LED light.

Keep it straight and sharp with Tajima

We now offer the new *Chalk-Rite™ II* chalk snap-lines from Tajima. Whether you need an extra-bold (# CR201R-2) or an ultra-thin (CR202B-2) line, these products are really the top of the line for your job.

- Contractor-grade chalk snap-line with 100 ft (30 m) of extra bold premium-grade line
- Smooth gear-drive winding, up to 3 times faster than standard snap-lines
- Durable, heavy-gauge die-cast aluminum case sealed with an elastomer gasket
- Compact and ergonomic, it fits comfortably in the palm of your hand.

Low-priced auto-levelling DeWalt laser

Now available is the new DW074KD auto-levelling rotary laser from DeWalt. With this product, you are able to make either an horizontal line (auto-levelling) or a vertical line (manual adjustments).

Its protected and waterproof head allows the user to work with it inside or outside with ease. The digital laser detector included in the box extends interior and exterior range to 600 feet. The auto-levelling DeWalt laser # DW074KD comes with a detector, target card, wall mount, 2 D-size Alkaline batteries, and nylon carriage bag.
